Bill Printer MacOS Driver Documentation

1. Introduction

prt.pos.drv is the MacOS system driver installation package, which, when installed successfully, can be used with Neutral's 58 Series and 80 Series bill printers. This document provides instructions for driver installation, uninstallation, printer driver selection, and printer parameter introduction.

2. Install Bill Driver

Open the prt.pos.drv installation package in the Apple MacOS operating system. Follow the installation instructions, and when the installation page displays the message of successful installation, the installation process is complete.

3. Printer Select Driver

3.1 Automatic Printer Driver Matching

MacOS system operation method:

After installing the driver, connect the Neutral 58 or 80 series bill printer. Choose the Apple menu > "System Preferences" and select "Printers & Scanners." In the printer and scanner list, you will see the displayed Printer POS-58 or Printer POS-80 printer, which has been automatically added and matched with the corresponding driver. This confirms the successful installation of the printer driver, and you can proceed with printing operations.

CUPS Print Management System Operation Method:

To connect the printer device, open a browser and enter the URL "localhost: 631" to access the CUPS printing management system. Select "Printers" to enter the printer devices page, where you can see the printer name, driver name, and printer status. If you have connected a 58/80 series bill printer model that is supported by the driver, it will automatically install and match the driver (Printer POS-58 or Printer POS-80) upon printer connection, and you can view it on the "Printers" page.

3.2 Manually Adding a Printer and Selecting the Drive

MacOS system operation method:

To connect a Neutral 58 or 80 series bill printer, choose the Apple menu > "System Preferences" and select "Printers & Scanners." Below the printer and scanner list, click the add button "+" and select the printer. Expand the "Use" section and click "Select File" to expand all installed drivers. If

the POS-58 or POS-80 drivers are included, it indicates that the driver installation was successful. Select the driver and click "Add" to complete the printer addition. You will see the printer in the printer and scanner list.

4. Printer Management

Printer Status Adjustment

In the CUPS Print Management System page, select "Printers" to enter the printer device page. Click "Maintenance" to expand the dropdown menu. You can use the following functions to adjust the printer status:

"Print Test Page";

"Pause Printer/Resume Printer";

"Reject Jobs/Accept Job";

"Move All Jobs"; "Cancel All Jobs".

Printer Parameter Settings

CUPS Print Management System Operation Method:

Click "Administration" to expand the dropdown menu. You can modify printer parameters using the following settings: "Modify Printer"; "Delete Printer"; "Set Default Options" "Set As Server Default"; "Set Allowed users".

••• • • •	0	localhost	9 1	ů + జ

Cut Option (Cut Option)

1. Page Cut Type (Page Cut Type): You can set "No Cut" (Do not perform cutting), "Partial Cut"(Partial Cut means Perform partial cutting), or "Full Cut" (Cut it all off). If the printer only has the "Full Cut" function, setting "Partial Cut" will have no effect, and the printer will still perform a full cut. Similarly, if the printer only has the "Partial Cut" function, setting "Full Cut" will have no effect.

2. Document Cut Type (Document Cut Type): You can set No Cut (No Cut), Partial Cut (Perform partial cutting), and Full Cut (Cut it all off).

3. Feed Cut After Job End (Feed Cut After Job End): The length of the paper left after cutting is adjustable. It can be set to "None" (None) for no extra paper, or select 1 Line-15 Line (1-15 lines) to leave as extra paper

Cash Drawer Control (Cash Drawer Control)

1. Cash Drawer 1 (Cash Drawer 1): Not Cash Drawer 1 (Not Cash Drawer), Cash Drawer 1 Before Printing (Cash Drawer Before Printing), Cash Drawer 1 After Printing (Cash Drawer After Printing). The printer needs to be connected to the cash drawer before setting this function.

2. Cash Drawer 2 (Cash Drawer 2): Not Cash Drawer 1 (Not Cash Drawer), Cash Drawer 1 Before Printing (Cash Drawer Before Printing), Cash Drawer 1 After Printing (Cash Drawer After Printing)

5. Uninstall Bill Driver

To delete the POS and PPDs folders, go to the main page and select "Go" > "Computer" > "Hard Drive" > "Library" > "Library" > "Printers". Move the POS and PPDs folders to the trash bin for deletion. After deleting them, the automatic installation of Neutral bill printers will no longer be possible, or adding a printer with the Make printer option will confirm successful driver deletion. In the printer and scanner list, click the add button "+" below, select the printer, expand the "Use" section, and click "Select File". If the Printer POS-58 or Printer POS-80 is not available in the file selection window, it indicates successful driver deletion.
